

NET DIRECTORY

(Of All Nets Registered with ARRL from Aug. 1 to Nov. 18, 1957)

General. The cross-indexed ARRL Net Directory is divided into three sections: (1) Alphabetical by name of net: this is the "master" section which gives complete information on each net as supplied by the registrant. (2) Alphabetical by states, territories or Canadian provinces; nets with regional or interstate coverage are not included in this listing (certain exceptions). (3) By frequency of net operation, from low to high, including data on time and days of meeting in abbreviated form.

Nine items of information are furnished for each net, if given by the registrant. If not given, the space is simply left blank. These items are arranged in numbered columns as follows:

1. Name of Net. This is the name furnished by the latest registrant, exactly as given to us. The state in which the net is located is included parenthetically where this is not obvious from the name and where registrant has indicated that the net's operation is confined within the boundaries of a single state.

2. Frequency, in kilocycles. Where more than one frequency is used, additional frequencies (and other data to go with them in other columns) are listed under each other. Where other data are the same for more than one or all frequencies, these data are not re-listed.

3. Days. To save space, the following abbreviations are used: Sn - Sunday; M - Monday; T - Tuesday; W - Wednesday; Th - Thursday; F - Friday; S - Saturday; Dy - Daily, including Sunday; 1/3 Sn - first and third Sundays of each month; 1/M - First Monday of each month; H - Holidays; also other similar abbreviations. Days are in accordance with local standard time. A hyphen between days indicates that all days between are included.

4. Times. Five time zones are used, A for AST, E for EST, C for CST, M for MST and P for PST. The 24-hour time system is used throughout; to convert to A.M.-P.M., if time shown is under 1200 insert a colon in middle and add A.M.; if time shown is over 1200, subtract 1200, put a colon in the middle and add P.M. Nets are registered by their local standard time if in one of the above time zones; otherwise, in GMT only.

5. GMT. This is the time at the 0° longitudinal meridian (Greenwich Mean Time), used universally as a standard. It is included for convenience in comparing meeting times.

6. Manager. The call letters of the amateur who has administrative charge of the net, and to whom inquiries regarding its operation can be addressed.

7. Purpose. Only nets with a traffic (T) or emergency (E) purpose (or both) are indicated. Other nets listed either indicated no purpose, or a purpose other than traffic or emergency.

8. Duration. The maximum length of time the net operates at any single session, in minutes.

9. Designation. The letters used in the net call-up on c.w., or the letters commonly used to refer to the net on phone, if any.

How to use the Net Directory. If you know the name of the net, just look it up in the master alphabetical listing (I). If you want to know what nets are active in a given state, look up the state (or territory or Canadian province) listing (II); then look up the net(s) by name in the master listing (I) for complete information. If you want to know what net or nets operate on a certain frequency, look at the listing under that frequency (III); days (according to local standard time) and times (GMT) of operation are also included in this listing; for additional information, if desired, look up the net by name in the master listing (I).

Important Note! This net listing is for information only! Registration of any net herewith does not necessarily imply affiliation with ARRL, give the net listed any prior right to the frequency on which it is registered, or have any other official implications. Insofar as practicable, each net is registered in exact accordance with the information supplied by the registrant.

IV. NATIONAL TRAFFIC SYSTEM NETS

All nets in the net directory (Part I) that are marked with an asterisk are part of the ARRL National Traffic System. The purpose of this section of the directory is to give you additional detailed information on the NTS setup, including coverage areas and operating schedules. Where the operating schedules do not entirely agree with those shown in Part I and Part III of the Net Directory, it indicates that a change was made between the times of compilation of this information and that.

Complete information on NTS is available from ARRL Headquarters. Ask for CD-24.

EASTERN AREA NET (EAN): 3670 kc., 2030 EST, Monday thru Saturday. Representatives participate from the First, Second, Third, Fourth, Eighth and Eastern Canadian (Eleventh) Regional nets listed below. Two stations from the Transcontinental Corps also participate to handle inter-area traffic.

First Regional Net (1RN): 3605 kc., 1930 EST, Monday thru Saturday. Representatives participate from the following ARRL Sections: Maine, Vermont, New Hampshire, Eastern Mass., Western Mass., Rhode Island, Connecticut. Liaison is conducted with the Eastern Area Net.

Second Regional Net (2RN): 3690 kc., 1845 & 1945 EST, Monday thru Saturday. Representatives participate from the New York State Net (E.N.Y. & W.N.Y. sections), the NLI Net (NYC-LI section) and the New Jersey Net (N.N.J. & S.N.J. sections). Liaison is conducted to (at 1945) and from (at 1845) the Eastern Area Net.

Third Regional Net (3RN): 3590 kc., 1845 & 1945 EST, Monday thru Friday. Representatives participate from the Eastern Penna., Western Penna. and Md.-Del.-D.C. sections. Liaison is conducted to (at 1945) and from (at 1845) the Eastern Area Net.

Fourth Regional Net (4RN): 3547 kc., 1945 & 2130 EST, Monday thru Saturday. Representatives participate from the following ARRL sections: Virginia, N.C., S.C., Georgia, Eastern Fla., West Indies and Canal Zone. Liaison is conducted to (at 1945) and from (at 2130) the Eastern Area Net.

Eighth Regional Net (8RN): 3530 kc., 1945 & 2130 EST, Monday thru Saturday. Representatives participate from Michigan, Ohio and West Virginia. Liaison is conducted to (at 1945) and from (at 2130) the Eastern Area Net.

Eastern Canada Net (Eleventh Regional Net) (ECN): 3535 kc., 1945 EST, Monday thru Friday. Representatives participate from Ont., Que. and the Maritimes, with coverage extending to Newfoundland and Labrador. Liaison is conducted to and from the Eastern Area Net.

CENTRAL AREA NET (CAN): 3670 kc., 2030 CST, Daily. Representatives participate from the Fifth, Ninth and Tenth Regional Nets listed below. Two stations from the Transcontinental Corps also participate to handle inter-area traffic.

Fifth Regional Net (RN5): 3645 kc., 1945 & 2130 CST, Monday thru Saturday. Representatives participate from the following ARRL sections: Tenn., Ala., Western Fla., Miss., Louisiana, Arkansas, Okla., No. Texas, So. Texas. Liaison is conducted to (at 1945) and from (at 2130) the Central Area Net.

Ninth Regional Net (9RN): 3640 kc., 1630 & 1945 CST, Daily. Representatives participate from Wisconsin, Illinois, Indiana and Kentucky. Liaison is conducted to (at 1945) and from (at 1630) the Central Area Net.

Tenth Regional Net (TEN): 3545 kc., 1700, 1945 & 2130 CST, Daily. Representatives participate from the following ARRL sections: Manitoba, Minn., N. Dak., S. Dak., Nebr., Iowa, Kansas and Missouri. Liaison is conducted to (at 1700 and 1945) and from (at 2130 and 1700) the Central Area Net.

PACIFIC AREA NET (PAN): 3675 kc., 2030 PST, Daily. Representatives participate from the Sixth and Seventh Regional Nets listed below. Two stations from the Transcontinental Corps also participate to handle inter-area traffic.

Sixth Regional Net (RN6): 3615 kc., 1945 & 2130 PST, Daily. Representatives participate from the Northern California Net (East Bay, San Francisco and Santa Clara Valley sections), the Southern California Net (Santa Barbara, Los Angeles and San Diego sections), the Sacramento and San Joaquin Valley sections, Arizona, New Mexico, Colorado, Utah, Nevada and the Territory of Hawaii. Liaison is conducted to (at 1945) and from (at 2130) the Pacific Area Net.

Seventh Regional Net (RN7): 3575 kc., 1945 & 2130 PST, Monday thru Saturday. Representatives participate from the following ARRL Sections: British Columbia, Wash., Ore., Idaho, Wyo., Mont. Coverage Also extends to Alberta, Saskatchewan and Alaska. Liaison is conducted to (at 1945) and from (at 2130) the Pacific Area Net.

TRANSCONTINENTAL CORPS (TCC): This is not a net, but a corps of highly qualified operators who have the function of transferring traffic from one area net to another. It is divided into three areas of operation: Eastern Area (W3WG, Director); Central Area (W0BDR, Director); Pacific Area (W0KQD, Director). For further details of TCC operation, see CD-24.
